EDUCATION

University of Virginia, School of Engineering and Applied Science, Charlottesville, VA *Expected May 2025*

- BS in Computer Science and BA in Mathematics, GPA 3.88
- Relevant Coursework: Machine Learning | Cybersecurity | Software Development (I & II) | Data Structures and Algorithms (I & II) | Discrete Math and Theory (I & II) | Computer Systems and Organization (I & II)

UVA in Valencia, Semester abroad, Valencia, Spain

Fall 2022

- Reached B2 (upper-intermediate) level of Spanish during a semester of 15+ European expeditions

SKILLS

- Proficient in: Java, Python, C, Linux, git, Latex, Matlab, Excel, Scikit Learn, Keras, Django, Plotly Dash, Agile
- Experience with: Hibernate, SQL, JavaFX, Bash, JavaScript, Assembly, HTML/CSS, Amazon AWS

RELEVANT EXPERIENCE

Full-Stack Web App Developer, *Advanced Software Development* *August 2023 – December 2023*

- Designed, implemented, and tested Django/Python-built web application for hosting user-created and searchable-via-filter local events deployed on Heroku in team of 5 over 12 weeks
- Integrated Google Maps and Google OAuth API via Google Cloud Console with embedded map and user privileges
- Solicited and validated customer requirements by surveying and interviewing 35+ stakeholders
- Designed and automated unit tests for continuous integration plus 28-step Beta test as Testing Manager

Full-Stack Java App Developer, *Software Development Essentials*

January 2023 – May 2023

- Personally designed 16-class Model-View-Controller-based course review system with ORM Hibernate and SQL, including CUI functionality, username and password storage, and robust exception handling
- Engineered fully-functioning Wordle, focusing on modularity between back-end and JavaFX GUI
- Developed 50+ Junit tests over 7 Java projects, implementing Test Driven Development, white-box and black-box testing, equivalence partitioning, boundary testing, and continuous integration

Test Automation/QA Engineering Intern, *ScienceLogic*

June 2022 – August 2022

- Automated 4 manual test sets covering Electronic Key Management System (EKMS) initialization, restart-ability, logging, and token rotation, reaching 133% of company-requested goal
- Developed, tested, and standardized 800+ lines of Python code and 1100+ lines of Gherkin code
- Documented test automation guide on Jira webpage, including step-by-step instructions, individual test info, troubleshooting tips, and FAQs
- Delivered hour-long demonstration to team of 8, explaining both proper usage and underlying code
- Discovered, investigated, and detailed 3 bug tickets while running 11 Jira test sets as a Quality Assurance engineer

Website Development Lead, *Forge Sprints*

April 2022

- Directed team of 3 in implementing 6 website improvements and marketing strategy for a local high school
- Specified timeline, solicited website access, communicated task expectations and progress, and executed virtual meetings with team and 5 clients
- Embedded photo gallery and API-powered Google Calendar using WordPress and Elementor

LEADERSHIP AND ADDITIONAL EXPERIENCE

- **Music Director:** Led twice-a-week 3-hour rehearsals, twice-a-month gigs, and semesterly concert in 14-member college a cappella group, resulting in doubled membership and heightened audience acclaim during 2023
- **Group Theory Researcher:** Performed 12-week research comparing effectiveness of 3 group theoretical tools for musical chord analysis with personal Math graduate student, culminating in 20-minute presentation
- **Summer Missionary:** Spearheaded weekly virtue-based talks and Bible studies as full-time volunteer serving 20+ disadvantaged at-risk youth to cultivate character growth during Summer 2023
- **P2L Peer Coach:** Taught 5+ Calculus II students for twice-a-week hour-long sessions during Spring 2022. Hired by university and planned lessons with professor
